Preparing

To make the most out of your portrait, it is important to plan clothing that will complement your image and make your family the focal point. Wardrobe suggestions include jewel tones, navy blue, ivory, hunter green, gold, burgundy, deep purple, black and any combination of brown tones. Any very rich colors will look best. Avoid busy patterns. It's easiest to coordinate a portrait using just two dominant colors, and long sleeves and long pants are most flattering.

Your Session

To book your appointment, call the studio at 713-942-2272. Our portrait sessions run about an hour. Within 7 to 10 business days after your portrait session, you will come to the studio for your 90 minute image presentation. Our image presentations are conducted in a family-style room where your images are projected onto a large screen. You will place your order at the conclusion of the image presentation. Please invite anyone who is a decision maker, and anyone else who may want to order portraits, to your image presentation session.

Details

Certificates have no cash value. Limit one certificate per family. Cannot be combined with any other offers. Certificate expires one year after purchase. Certificates are good for one complimentary in studio family portrait session with Danny Clark and a 5x7 or 11x14 art print according to the specific certificate purchased.
